

# Billy Walker, Down To My Last Cigarette

The coffee's all gone and my eyes burn like fire  
It's way past the hour when most folks retire  
You said that you'd call me but you haven't yet and I'm down to my last cigarette  
I'm down to my last cigarette you're down to the last chance you'll get  
For you're out there somewhere with someone you've met  
And I'm down to my last cigarette  
[ guitar ]  
I can't leave this room you might call while I'm gone  
The minutes seem hours soon will be dawn  
And with every minute I give more upset and I'm down to my last cigarette  
I'm down to my last cigarette...
