

Billy Walker, What Makes Me Love You (Like I Do)

What makes two hearts that beat as one until the heart trades love for fun
What makes the one I love untrue what makes me love you like I do
What makes the stars up in the sky seem lost from dark clouds drifting by
What makes them tear my dreams in two what makes me love you like I do
[steel - fiddle]

What makes a heart so sick and sore what makes a heart keep yearning for
A heart that's gone to love anew what makes me love you like I do
I can't explain this heart of mine this foolish love it made was blind
I'd ended all if I just knew what makes me love you like I do
