

Binocular, Deep

So this is what you mean and this is how you feel
So this is how you see and this is how you breathe

But sometimes I know sometimes I go down deep

So this is what you mean and this is how you feel
So this is how you see and this is how you breathe

But sometimes I know sometimes I go down deep

Beneath the deep blue sea you're touching every breath
And all the sleight of hand for everything you left

But sometimes I know sometimes I go down deep

Sometimes, I give myself away sometimes I know down deep
