

Birdman & Lil Wayne, Everything

(talking)

I know, I know, Weezy Wee, this dedicated to my father
Rabbit nigga, y'all excuse the expressions

What it be like up there baby boy, ay this here ya son hollerin at ya
I miss the shit out ya, it's hard to be without ya
But I know you watchin, peepin down on how I'm livin
Ay, tell Jesus I said thanks for the blessings he sendin
Please ask him to forgive me for the sins I commit
Just let him know I'm still young and at risk
Say, I'll never forget the time that you caught me smokin herb in the house
I was dead wrong, I deserved to get out
But you just talked it over with my mom and got it situated in due time
Told me get the paper instead of high
So now I take that advice and shed light over my whole life dog
I wanted to be just like you my whole life dog
I can't believe them niggas stole ya, that shit's pain to me
But don't trip, I hold you down, you still remain through me
And dog I know I can't see you but I bet that you smilin
And I'm a make you even happier, I promise

(Chorus) 2x

I know you can't be close to my nigga, I know
But I know you watchin over me nigga, I know
But the shit's steady hurtin, burn deep
But it's alright dog, everything gon' be alright dog

I know you see my daughter growin up and bad as ever
But she cool 'cause she do whatever daddy tell her
And your wife, she's still the most wonderful woman
I just built her a new house, she ain't runnin from nothin
B and Slim, them niggas still love me like they own child
Ms. Rose nerves get bad, but still she gon' smile
And me I'm on some "squash it" and some debate it
But I know they love it way more than they hate it
And I know you probably laughin at the way I treat these hoes and these
bitches
I try love 'em, my BM be trippin
But Rabbit, you know one thing, I got the game from you, every perspective
That's why I keep the gun at close connection for protection
And you see I left school behind and chose CMB
It was impossible on the road every week, but I know enough
And I follow by everything you ever told me, think wisely
Watch over me my nigga, just guide me

(Chorus)

I swear to you man, at some times I really wish I was with you
'Cause I get fed up with this life and I miss you
Somebody pass me a tissue, and let me wipe the tears from my eyes
Yeah, nigga I cried, it's 'cause I loved you dog
I promise I won't ever put nothin above you dog
So I live my life in dedication of you dog
I know you see me happy on the outside and hurt within
Make me wanna grab that gun and burst again
But I know they got a reason why I'm here
And I know they got a reason why you gone
And therefore, I'm succeedin on my own
But you ain't never left me, nigga, you still dwell in my heart
I can't forget you kept it real from the start
And until my last breath I exhale, I'm a keep you with me
And when we do meet again, I'm a keep you with me
And tell them niggas Pac, B.I.G. and Pun I said "thay's my peoples"
Watch over me nigga 'til I see you

(Chorus) 1 1/2x

(Wayne talking)

I know I can't be close to you (dog)
I know you watching over me dog
But the shit's that it hurt and burn deep
Its alright dog, everything gon' be alright dog
Rabid, nigga, its your son

You see Cita strait, mom strait
Your mom strait, I mean Everything going right
Me and Slim nigga, is the realist niggas I ever met dog
And plus now i'm on some Squad Shit
