

Birdy, Paradise Calling

Riding high
When I was your star
Mmm

Lightning strike
Right at the heart
Mmm

Chorus
Paradise calling
All I ever wanted is
Something to believe in
Something to believe in
Both eyes wide open
So high still falling
If you could only feel it
If you could only feel
Our love

Light us up
Open the door
We could find the way out the dark
This could be the spark
You don't know the ways of the heart
This could be the start

Paradise calling
All I ever wanted is
Something to believe in
Something to believe in
Both eyes wide open
So high still falling
If you could only feel it
If you could only feel
Our love
Middle
We could find the way out the dark
The dark
You don't know the ways of the heart
The heart
We could find the way out the dark
The dark
You don't know the ways of the heart
This could be the start

Paradise calling
All I ever wanted is
Something to believe in
Something to believe in
Both eyes wide open
So high still falling
If you could only feel it
If you could only feel
Our love
Our love
Our love
Our love
