

Birdy, Voyager

Watching satellites, I
Ling in the grass
I know our days are numbered
But you don't know that I feel like that
You don't hear solitude,
Calling me away
And the hardest part is part of me wants to stay

I won't wait for you
I am already gone
Like moonlight leaves with the dawn
I won't wait for you
The night i stoo long
I am voyager
And i voyage on!

Clouds move like paint
Changing in the sky
If te wind is on my side
I might leave tonight
I hate to disappoint you
But i 've already been this way
And i know you need me here
But i kow that i won't stay

No, I won't wait for you
I am already gone
Like moonlight leaves with the dawn
I won't wait for you
The night i stoo long
I am voyager
And i voyage on!

No, I won't wait for you
I am already gone
Like moonlight leaves with the dawn
I won't wait for you
The night i stoo long
I am voyager
And i voyage on!
