

Bitch Alert, Don

Get down little scene mistreater
You love but ya can't believe her
Breeding the atomic freedom
Burnt out like a dead reign
There`s no time for heaven

You got everything ya wanted
Now you`re just a past reformance

In the bedroom wasteland

Trip out on the fascination
Blast off to the moon to pray on
Winter freeze all forever
You want but she won`t it deliver

It`s a bad love situation
Rocket engines love and coca cola
It`s a bad love situation
Situation low

Get down like a plastic preacher
Your love`s an elastic feature
Joy school for those who make it
You`re like an abandoned baby

Corporate sin god lover
So what style you`re naked
Place in time forever
Place the comet`s thrill

Beyond in an avalon kingdom
Light plays come and kiss the mourners
Survive for the dead desire
Worship and destroy the fire

It`s a bad love situation
Rocket engines love and coca cola
It`s a bad love situation
Rocket engines love and coca cola

We don`t need you
We believed you
We don`t need you
You don`t love me baby
