

Bitch Alert, My Liver

They said they would let me into their little groups, they were
lieing
Fooled me they would put me into the highest place, I cried

Inside my heart's breaking, my mind's breaking, I'm not all
there
My liver's fucked by alcohol

Next day I went to school, now I'm really cool like you
Be bad and earn your place in the smoking ring, you're high now

They took my glasses, broke them, burnt my clothes with
gasoline
My liver's fucked by alcohol

Inside my heart's breaking, my mind's breaking, I'm not all
there
My liver's fucked by alcohol
