

Bjork, Cosmogony

Heaven, heaven's bodies
Whirl around me, make me wonder
And they say:
Back then our universe was an empty sea
Until a silver fox and her cunning mate
Began to sing
A song that became the world we know
Heaven, heaven's bodies
Whirl around me, make me wonder
And they say:
Back then our universe was a coal-black egg
Until the god inside burst out and from
Its shattered shell
He made what became the world we know
Heaven, heaven's bodies
Whirl around me, make me wonder
And they say:
Back then our universe was an endless land
Until our ancestors woke up and before
They went back to sleep
They carved it up into the world we know
Heaven, heaven's bodies
Whirl around me, make me wonder
And they say:
Back then our universe wasn't even there
Until a sudden bang, and then there was light
Was sound, was matter
And it all became the world we know
Heaven, heaven's bodies
Whirl around me, a dance eternal
