

Black Bomb A, My Mind Is A Pussy

Born in a world of violence and anger
All this fucking shit's raping my desire
I just wanna fuck everybody who's moving up
Sexual perversion, I want to be da number one
Born in a world of violence and anger
Don't you wanna be my bitch for one hour

Wake up mother fucker : you're always alone !

All the pictures of women's orgasms are turning in my mind
My mind is a pussy, your pussy's in my mind, yop your ass ties up my penis,
and you like that
And I come, go, come back, come on your ass
You're urinating in my mouth

Wake up mother fucker : you're always alone !

Drugs ! Sex ! Rot ! In my eyes

Father used to say :
"Repent you, for all your sins, there is nothing I cannot see"
That's just a piece of shit, I'm not your fucking sheep,
Your sterile world is just spiritual masturbation
"Bow to me, bow to me on your knees boy. I'm your master, your creator !" ;

Drugs ! Sex ! Rot ! In my eyes

Born in a world of violence and anger
All this fucking shit's raping my desire
I just wanna fuck everybody who's moving up
Sexual perversion, I want to be da number one

My mind is a pussy, your pussy's in my mind, yop your ass ties up my penis,
and you like that
And I come, go, come back, come on your ass
You're urinating in my mouth

Wake up mother fucker : you're always alone ! [x2]
