

BLACK BOX, Open Your Eyes

Love is freewheeling, keeps me wakin' all night long
But just like makin' love, becomes a part of you
Nobody's losing when we get so satisfied
Because of you i've got to shouting out my love

Open your eyes, there's my love, turn it over
Open your eyes, it's no time to be afraid
Open your eyes, till the dawn's up and over
Open your eyes, there's you bed and it's made

Gimme that feeling and we'll rock it on out strong
But when you're makin' just like i do to you
The night is growing and i think we're gonna fly
It's just for you that i'll be shouting out my love
