

BLACK BOX, Strike It Up (Original Remix)

Strike it up, this band is gonna play my tune
Strike it up, I wanna I wanna tell you so
Strike it up, nobody's gonna stop my sound
Strike it up, you know how lonely one can feel

Waiting on my feeling, yeah yeah

Strike it up, your band is tapping on my skin
Strike it up, and keep me and keep me standing on
Strike it up, nobody's gonna let you down
Strike it up, you know how lovely one can be
