

Black, Cool

It's just a trick of the night
How you set me alight
On the edge of the shadows curve
I've been learning to be
Like the people you see
Who get all the love I deserve
No, you won't be sorry
I want you to feel me
It would be so cool to be your girl
It would be so cool to rule your world
I will be so cool when I'm your girl, I will be so cool
Don't be scared, you won't have to care
I never leave a hair out of place
I'll be shaving you bare tied to the chair
Licking the sweat off your face
You give me the hunger
I want you to feel me
It would be so cool to be your girl
It would be so cool to rule your world
I will be so cool when I'm your girl, I will be so cool
I'll only live to please you, make you so happy
And we could play blessings and curses, doctors and nurses
I'll let you be king for the day
Any way you want it is fine by me
Any way you want it is fine
Take anything you see that you think you might need
Anything as long as it's mine
It would be so cool to be your girl
It would be so cool to rule your world
I will be so cool when I'm your girl, I will be so cool
So cool
It would be so cool to be your girl
It would be so cool to rule your world
I will be so cool when I'm your girl, I will be so cool
Yer
