

# Black Eyed Peas, Love wan't wait

Hook:

I love you love, but I'm thinkin' 'bout leaving

So far you treated me so bad

I love you love, but I'm thinkin' 'bout leaving

So far you treated me so bad

I call my baby to tell her I'm on my way

Call her 'til I pass we going out today

It was a beautiful Sunday

I had plans on going to watchin the matinee

But as soon as I step to the door

She hit me with some stuff that I just couldn't ignore

That she had to up and leave

'Cause I was a fool foolin her on what she need

Check it, yo from my point of view it was kinda whack

She said even when we're reminiscing there's no bringing it back

And for her, it's really beyond that

Talkin about she been through emotional combat

Chorus:

All the years that I been back

You were never around

And now, love won't wait

(It's like that now, oh, it's like that now)

Let's stop all my love to you

Baby, I'm through with you

'Cause now, love won't wait

(It's like that now, oh, it's like that now)

Hook

Yo, Will, that's kinda whack, I know how you be feelin

My girl's also trippin about the same reason

'Cause we out for two seasons on the road makin G's and

I figured it out these women there's no pleasin

Yo, Will, I feel the pain, that you're going through

She got you stuck on a yam and she's splatting too

Plotting on leaving you, yo, are you feeling cool

And if you're not you can always hang with the crew

Chorus

I call my baby to tell her I'm on my way

Call her 'til I pass we going out today

It was a beautiful Sunday

I had plans on going to watchin the matinee

And she dissed you, up and left you

Packed her bags and went and upset

She was like "I'm leaving" (Oh it's like that, now)

"I'm leaving" (She was always like that)

Check it, but from my point of view it was kinda whack

She said even when we're reminiscing there's no bringing it back

And for her, it's really beyond that

Talkin about she been through emotional combat

Chorus

Hook (2x)

I love you love, but I'm thinkin' 'bout
