

Black Flag, Drinking & Driving

Drink, drink, drink, drink
Don't think
Drink, drive, kill

Get drunk alot and work 40 hours a week
Spend half your time hungover, sick, and weak

Make sure to tell yourself that this is cool
And make sure to tell yourself that you have no choice
And make sure to tell your friends that they drive you to it
And that you can quit anytime that you want, anytime
You can quit anytime that you want
You can quit anytime
You can quit anytime, anytime

Drink, drink, drink, drink
Don't think
Drive, kill

Party down, party down
Drink until ya can't even see
Fill your car with your buddies
And wrap it around a tree

Make sure to tell yourself that this is cool
And make sure to tell yourself that you have no choice
And make sure to tell your friends that they drive you to it
And that you can quit anytime that you want
You can quit anytime that you want
You can quit anytime that you want
You can quit, you can quit, you can quit!

Make sure to tell yourself that this is cool
And make sure to tell yourself that you have no choice
And make sure to tell your friends that they drive you to it
And that you can quit anytime that you want, anytime
You can quit anytime that you want
You can quit anytime that you want
You can quit anytime

Drink, drink, drink, drink
Don't think
Drive, kill

Feelin' pretty petty lying low in a hospital bed
Busted car, busted head
You had a friend but now he's dead

Make sure to tell yourself that this is cool
And make sure to tell yourself that you have no choice
And make sure to tell your friends that they drive you to it
And that you can quit anytime that you want, anytime
You can quit anytime that you want
You can quit anytime that you want
You can quit anytime
Anytime you want
