

Black Francis, Half Man

Don't blame me because don't blame me 'cause hey I'm only human
And don't tell me the cost don't tell me 'cause hey, Hey I'm just a crewman out to sea

I am half man I'm almost like you
But you'll be goddamned when I'm through
Over the waves making my way out to sea

I am the last in line that started with who, with John Von Neumann?
If it's the end of time so be it but hey hey it was Truman who set me free

I am half man I'm almost like you
But you'll be goddamned when I'm through
It's a new day so open the bay and set this free
