

Black Francis, Your Mouth Into Mine

Hey! Where you going?
Hahahaha

All my days I've been listening you play
I've spent all my days driving, all my life trying
You are so big, but that don't make me so small
You rule the world, but now I am standing tall

I'm taking your mouth into mine
I'll take it in now
I'll take it in now, now, now, now
I've been waiting all my days for you now
Been waiting all my

Got into your parts and I
Made you squeal and I
Got into your heart
It was no big deal

And I'm taking your mouth into mine
I'll take it in now
I'll take it in now, now, now, now
Been waiting all my days to get on that
Been waiting all my

I'm taking your mouth into mine
Suck it in now
Suck it in now, now, now, now
Been waiting all my days to get on that
Waiting all my

Ha
I'm taking your mouth

Got into your parts and I
Got into your charts and I'm
Taking your mouth

I'm taking your mouth
I'm taking your mouth
Taking your mouth
I'm taking your mouth
I'm taking your mouth
