Black Heaven, Center Of Light

The day is gone and shadows whisper Deep inside my heart I am alone with all my wisdom Step out into the dark Im longing for another knowledge The pain will never end Im waiting for whole destruction Of everything that stands

Yes, Im searching for love, for the centre of light Cause I want to be free, want to be free tonight Yes, Im searching for love, for the secret inside For the centre of light

I for my part think that its needless To hope for a better world Sometimes I leave behind my memories And go without a word The night has come and voices whisper Deep inside my mind I am alone with all my insight And waiting for a sign
