

# Black Hills Country Band, I Wish I Knew

I wish I knew what's on your mind  
Every time you look at me  
There's something you can't see  
I wish I could  
Wish I could show all the secrets that I hide  
All these feelings deep inside  
And I can tell you there's something  
Burning deep inside of me  
There's something in my heart  
That you can't see  
Don't ask me don't ask me  
It's something strange but true  
Every time I look at you  
One day it's joy one day it's pain  
But I know it's always there  
It's not easy to explain  
And I can tell you there's something  
Burning deep inside of me  
There's something in my heart  
That you can't see, alone  
There's something in my heart  
That you can see
