

Black Hills Country Band, The Next Time I'm In T

Well, it's been something seein' you again
And in this time we had to spend
You've been so good to be around
I thank you for that special thrill
To keep me goin' until the next time I'm in town
Though I'm only back here for a while
I'll hear your laughter "I'll see your smile
And I'll remember what went down
And I can't tell you how or when
But I'll be seein' you again the next time I'm in twown
Now places and faces range
"Cross the bridge of time and change
Once again I'm homeward bound
But there's one thing I'll promise you
There's another rendez-vous the next time I'm in town
