

# Black, Human Features

Deep in our heart  
The thought that lies  
Alien attraction  
On this skeleton  
Began the flood  
Words spill out of my mouth  
Don?t be an idiot to jump and twist until I have to fight you  
Retain my  
My human features  
My human  
Feed my mind  
The blood runs faster  
My minds wrong  
Early anytime  
Began the flood  
Doctors fear for my body  
Don?t be an idiot to jump and twist until I have to fight you  
Retain my  
My human features  
My human  
Hidden inside  
The thinking lies  
Shouldn?t explain  
And shout rain  
Began the floods  
Nerves crackle in my brain  
Look in my eyes  
You?ll see a brave man  
Until I have to fight you  
Look upon my  
My human features  
My human  
In a moment  
I found I could run  
Won?t stop it  
I could not stop  
Began the floods  
The sound stopped and I found my legs being ground away  
From under me until I had to fight this erosion of my  
My human features  
My human
