

# Black Lab, Lifelike

To live a life like I wanted to  
A life like we used to  
A life like days and days gone by  
To live a life like I wanted to  
A life like we used to  
A life like days and days and days and days gone by

Hey, never wanted to waste your time  
Never wanted to waste your time  
Never thought I would get so lost along the way  
Never wanted to break your heart  
I always thought I would play my part  
It's amazing how far you fall before you wake  
See I can't fake it no more  
And I can't face myself  
See I can't wait to find a way...

To live a life like I wanted to  
A life like we used to  
A life like days and days gone by  
To live a life like I wanted to  
A life like we used to  
A life like days and days and days and days gone by

Hey, never wanted to waste your time  
I kiss you and you still cry  
Can I kiss you again  
Just once before you go...  
Cuz I can't stand here no  
Well I can't stand myself  
See i can't wait to find a way...

To live a life like I wanted to  
A life like we used to  
A life like days and days gone by  
To live a life like I wanted to  
A life like we used to  
A life like days and days and days and days gone by

A life like I wanted to  
like we used to  
like days and days gone by...  
and days and days gone by

To live a life like I wanted to  
A life like we used to  
A life like days and days gone by  
To live a life like I wanted to  
A life like we used to  
A life like days and days and days and days gone by
