Black Label Society, Bleed For Me

This grave of life I give to you Ignore what was you know it's true Realms of fear they speak the truth What has passed I hand to you

Bleed for me, I've bled for you Embrace me child, I'll see you through Bleed for me, I've bled for you Embrace me child, I'll see you through I'll see you

I'll dig the hole, and bow my head To see you smile, I face my death Realms of fear they speak the truth What has passed I hand to you

Bleed for me, I've bled for you Embrace me child, I'll see you through Bleed for me, I've bled for you Embrace me child, I'll see you through I'll see you

Bleed for me, I've bled for you Embrace me child, I'll see you through Bleed for me, I've bled for you Embrace me child, I'll see you through I'll see you
