

# Black Label Society, New Religion

Take me  
Raise me above  
Take me  
This undying love  
What once was, I wish to no longer see  
Wings of hatred, come set me free

You are the air in which I breathe  
You are the blood I drink and bleed  
These words beyond forever true  
My new religion is you

Forsake me  
It is you that I serve  
Take me  
This undying love

You are the air in which I breathe  
You are the blood i drink and bleed  
These words beyond forever true  
My new religion is you
