

Black Label Society, Parade of the Dead

Exterminate the laws of all
The sacred past begins to fall
The undying gods of death
The disease, it must be fed
Parade of the dead
Parade of the dead
The asylum marches on
The madmen kill what's left is gone
The undying gods of death
The disease, it must be fed
Parade of the dead
Parade of the dead
The machines must be fed!
Revenge and retaliation
The shadow of man's war has been cast
The masses and the grave
A fate that can't be saved
The undying gods of death
The disease, it must be fed
Parade of the dead
Parade of the dead
Parade of the dead
Parade of the dead
The machines must be fed!
