

Black President, Vacate The Vatican

Call out the dogs locked in their cages
It's killing time, it's killing time
And I won't be late
Dig up the witches burnt up at stakes
It's killing time, it's killing time
And I just can't wait
Vacate the Vatican
Burn burn
Liberate laitys
Burn burn
Spray paint the Sistine
And turn, turn away
Free altar boys from sodomite clerics
We're getting up, we're getting out
We'll take you along
John, Jobe and Romans make excellent kindling
So get 'em up and get 'em out
Let's sound the alarm
Vacate the Vatican
Burn burn
Liberate laitys
Burn burn
Spray paint the Sistine
And turn, turn away
Vacate the Vatican
Evict Benedict
Vacate the Vatican!
