

Black River, Joker

Just look at me - I'm a human being I'm alive ,
I have my feelings why the fuck d'you think you are better?
but the pain is mine - it doesn't matter only blood and sweat and tears
but remember even steel breaks a law for the rich ,
not misery ! when they kill you - you'll be on TV
you didn't even dream of being a star an American dream – it gets you fucked!
only blood and sweat and tears but remember even steel breaks
only one of misery : misery pain and anger and insanity
there was time for it all does it have to end this way?
