(feat. Mark Curry & Mario Winans)

Yeah

Uhh, uh oh, startin to feel this, startin to feel it

[Black Rob]

Yo who these cats think they is, takin they biz  
That's roun here, yo dog don't even go there  
This is ours, we built this from the ground on up  
Now it's flowers, I think you besta round on up  
Your entourage, slim chance of y'all gettin large  
It's non-cipher, that's because B.R.'s in charge  
It's set here, cats is known for gettin whet here  
And left here, till the cops come pick us up...

[Mark Curry]

Step in a territory that's corrupt, pushin your luck  
Intrudin wishes is already sowed up, nigga fold up  
You and your crew and peoples will get slain  
This aint the place to try and gain fame from  
You gets burnt in the streets a nigga worked hard to make  
And I'll be damned if I let another brother take it  
Alive for his own sake, they better vacate  
Promptly, for they get they ass stomped  
Listen take heed to what we sayin niggas

CHORUS

[Black Rob]

We won't lie, sometimes we stick em up  
Last time it was enough though word life some hoes did em up  
And nine glocks set em up  
I know it was your dough, cuz I was right there when they split it up  
I could tell you where to find the corpse  
But that cheddar, I'm afraid dog that's gone forever

[Mark Curry]

Greed for wealth got us stingy, we got a spot that's hot  
Niggas envy, the fact that we clock mad dough  
They wanna see us shut down but no  
I don't think so, the crew is still rakin the cash flow  
For every dime bag sold on this block we want in  
One slug behind the back it's under the skin  
When niggas try to step to the block and bogard  
We can't see it happenin, warn them first, get the fuck out of Dodge  
Better believe that, test it, see if we won't put you on your back  
Niggas

CHORUS

[Black Rob]

Now bein that it's all out war, I'm bringin more than that 4-4  
Watch me dispose of all yall  
Yall fraud ass niggas, tape me reboard ass niggas  
Gun bigger than sword ass niggas  
Now enter in the ring gun drawn, makin moves like pawns  
Two at a time, comin for mine  
Like a song nigga CBS, he cant' be serious finesse  
He don't believe I keep a gun in the vest

[Mark Curry]

You think you can disgrace this empire, we built from scratch  
You stupid, I wouldn't care how ruthless your crew is  
We got defense on this area, try to attack

Mad niggas on the barriers that's dyin of blast back  
They be no givin and no takin, definitely no breakin  
Laws we lay down, here's the situation  
Severe torture is what those who don't feel us face  
I show no love for a punk ass nigga we hate  
Try to pay me no bribe, then come up missin  
Happens to hard headed niggas when they don't listen  
I gave you fair warnin bout the danger you're messin with  
A stranger invadin the street corners are goners  
Try me, if you think it's a lie, the attitude many niggas had  
But in the process many die  
Fakin they can step to the block and bogard  
And couldn't see it happenin, warned em first get the fuck outta Dodge

CHORUS
