

# Black Sabbath, Am I Going Insane

Super animation, turning on a nation  
And they're saying all moving parts stand still  
Since he was elected, adrenalin injected  
Hear him saying all moving parts should kill  
Just like the hero he's got them all on the run  
Yes he's won, yeah  
Since he passed the motion, they're building in the ocean  
And he's saying all men should be free  
What a combination, peace and radiation  
And he's saying free men should fight for me  
Just like his mamma, he seems to get his pleasure from pain,  
And the rain, ain't that strange?  
Very strange, yeah  
I like choking toys  
You've got to see me before you meet the boys  
Teacher's burnt the school  
He's had enough of sticking to the rules, alright  
People stop and see  
He's got to be more decadent than me  
Just to pass the time  
He gets his kicks from licking off the wine  
Pretty silly ladies, all Cynthia's and Sadie's  
Call him and he takes their numbers down  
Says he is a woman, should have seen it coming  
And she says she's married to a clown  
Just like a lady she'll keep you guessing through the night  
Not tonight, well I might Oh alright, yeah
