

# Black Sabbath, Lonely Is The Word

It's a long way to nowhere  
And I'm leaving very soon  
On the way we pass so close  
To the back side of the moon  
Hey join the traveler if you got nowhere to go  
Hang your head and take my hand  
It's the only road I know

Oh! Lonely is the word, yeah yeah yeah!

I've been higher than stardust  
I've been seen upon the sun  
I used to count in millions then  
But now I only count in one  
Come on, join the traveler  
If you got nowhere to go  
Hang your head and take my hand  
It's the only road I know

Yeah, Lonely is the word  
Got to be the saddest song I ever heard

Yeah, Lonely is the name  
Maybe life's a losing game
