

Black Stone Cherry, Drive

Ain't got no cause not a care in the world
Got my eyes on a hot-rod girl
And I'm gonna show her my sleek mean machine
Built on love fueled by gasoline

Drive
We gonna go for a ride
Just drive
We were born to fly

Take down the top we don't need it anymore
Drive this road with the pedal to the floor
We're gonna go for the ride of our lives
It starts right here but it won't end tonight

Drive
We gonna go for a ride
Just drive
We were born to fly

We been traveling this lonely highway
For way, way too long
Come with me on the lovers freeway
And we'll find the love we need

Drive
We gonna go for a ride
Just drive
We were born to fly
