## Black Stoned Cherry, Shooting Star

" Shooting Star " I've seen your evil ways And your corrupting mind Lay the hourglass over So we don't waste our time Now throw your burdens out And throw your heart to me I don't know what'll come We'll have to wait and see Like a shooting star And you're falling from me As you fade away My heart skips a beat I know you're down on love But we can love again So open up Come on invite me in Now throw your burdens out And throw your heart to me I don't know what'll come We'll have to wait and see Like a shooting star And you're falling from me As you fade away My heart skips a beat I've seen your evil ways And your corrupting mind Lay the hourglass over So we don't waste our time Like a shooting star And you're falling from me As you fade away My heart skips a beat I'm a howlin' wolf You're a shooting star Yes I am You're a shooting star
