

# Black Tide, Let Me

Are you the one  
That I've been looking for all along  
I can't wait any longer  
I don't have much time  
Please tell me now  
Let me have you  
Let me touch you  
Let me get inside  
Your skin, your exquisite flesh, your sweat  
Drips down your neck, please tell me one day  
You'll be mine, all mine  
The heat from your body, drives me insane  
And I doubt that I can stand much longer  
When I'm around you my body aches  
And when I see your face everything else  
Just seems fake  
Let me have you  
Let me touch you  
Let me get inside  
How much longer must I wait  
How much longer will I crave  
How much longer can I stand you  
I'm trapped in this Hell

Are you the one  
That I've been looking for all along  
I can't wait any longer  
I don't have much time  
Please tell me now  
Let me have you  
Let me touch you  
Let me get inside
