

# Black Tide, Light From Above

When the days grow darker  
And the foes are full of fear  
The light will show  
And the enemy will fall  
This is our downfall  
This is our crusade  
The days of struggle and agony  
Must end  
This warfare we create  
We shall destroy  
And the light will show  
Light from above  
Please show yourself and save us all  
Bright you must blaze  
Your time has come to reign, to shine  
Now that things are clear again  
The battle must go on  
Sacrifice our primal thought  
So the battle must end  
I've been waiting way, too long  
For this day has now shown  
We must fight  
It's the only way  
Light from above  
Please show yourself and save us all  
Bright you must blaze  
Your time has come to reign, to shine  
Light from above  
Please show yourself and save us all  
Fight for your life  
Your time has come to reign, to shine

Light from above  
Please show yourself and save us all  
Bright you must blaze  
Your time has come to reign, to shine  
Light from above
