

Blackbear, u love u (ft. Tate McRae)

It's been over for a year or so
I should've left a couple tears ago
And even when i am with you
I still feel alone
Got me down on my knees
Heart is frozen
I don't feel nothing
Drinkin' and drugs just to feel somethin'
Stranger outside can you let me in?
Can you love me back, please?

Can you past stop repeatin'?
Can you let me down easy?

You're selfish, selfish, how do you love?
Too much, too much, never enough
You're a liar, liar, who can I trust?
I love you, you love you more
You're selfish, selfish, how do you love?
Too much, too much, never enough
You're a liar, liar, who can I trust?
I love you, you love you more
