

Blackbud, Corner Of The World

Everyone will envy us,
As we go past,

So in dreams together,
'Cos I know that we will,

Steal for ourselves,
A corner of the world,
Believe in ourselves,
A corner of the world,

Just tell me everything,
I always understand,
Just call my hand baby,
To fly right through this,

Everyone will envy us,
Everyone will envy us,
As we go past,

So in dreams together,
Ohhhh,
'Cos I know that we will,

Steal for ourselves,
A corner of the world,
Believe in ourselves,
A corner of the world,

Now just turn off the light babe,
Can you feel your breathing,
Kissing all your sadness and joy,

She tells me,
Shes my desert,
She's all the salt in my ocean,
She always saves me from drowning but we drown,

And the brightness of the sun,
Shines through her eyes,

Through my love
