

Blackfield, Pain

Here I'm standing on the sea shore
She is gone
Now she's gone
All the angels praying for me
As I fall
As I fall

While I'm melting in the rain
Deep in pain
She is so far
Will we ever meet again
As friends
After so long?

To my nightmare with the devil
I'll go strong
I'll go strong
All my friends now try to save me
What a joke
What a joke

While I'm melting in the rain
Deep in pain
She is so far
Will we ever meet again
As friends
After so long?
"(repeat twice)"
