

# Blackhawk, Bad Love Gone Good

Standing at the crossroads  
Taking a long look at my life  
Wondering where I'd be  
If she hadn't done me wrong

My heart's walking on a thin line  
A new love is coming on strong  
There comes a time  
When you just gotta move on

She never really understood me  
She tried to take me for all I had  
She left me with nothing but heartache  
A good love gone bad  
But you loved me like she never could  
It was a bad love, a bad love gone good

A bad moon's coming over my shoulder  
A good love in the pale blue night  
I'm holding on to you in a brand new light

I never knew what I was missing  
Your love took me by surprise  
Locked away inside her prison  
Till you opened my eyes  
But you loved me, like she never could  
It was a bad love, bad love gone good

She never really understood me  
She tried to take me for all I had  
She left me with nothing but heartache  
A good love gone bad  
But you loved me like she never could  
It was a bad love, a bad love gone good

But you loved me like she never could  
It was a bad love, a bad love gone good  
A bad love gone good  
A bad love gone good
