

# Blackhawk, Love And Gravity

(Mark D. Sanders/Henry Paul/Dave Robbins)

I stayed out late  
I didn't call  
I saw the light go out as  
I walked down the hall  
Silence begins  
Without a where have you been

Love and gravity  
Havin' their way with me  
Her faith in me  
Is in a tailspin  
Heart look out below  
Hold on 'casue here we go  
Free fallin' from her good graces again  
Free fallin' from her good graces again

Out on the edge  
That's where I fly  
I've gotten good at landin' on her bad side  
Words of regret  
Haven't bailed me out yet

Love and gravity  
Havin' their way with me  
Her faith in me  
Is in a tailspin  
Heart look out below  
Hold on 'casue here we go  
Free fallin' from her good graces again  
Free fallin' from her good graces again

I'm in way deep  
Every day of the week

Love and gravity  
Havin' their way with me  
Her faith in me  
Is in a tailspin  
Heart look out below  
Hold on 'casue here we go  
Free fallin' from her good graces again  
Free fallin' from her good graces again
