

Blackhawk, Love And Gravity

(Mark D. Sanders/Henry Paul/Dave Robbins)

I stayed out late
I didn't call
I saw the light go out as
I walked down the hall
Silence begins
Without a where have you been

Love and gravity
Havin' their way with me
Her faith in me
Is in a tailspin
Heart look out below
Hold on 'casue here we go
Free fallin' from her good graces again
Free fallin' from her good graces again

Out on the edge
That's where I fly
I've gotten good at landin' on her bad side
Words of regret
Haven't bailed me out yet

Love and gravity
Havin' their way with me
Her faith in me
Is in a tailspin
Heart look out below
Hold on 'casue here we go
Free fallin' from her good graces again
Free fallin' from her good graces again

I'm in way deep
Every day of the week

Love and gravity
Havin' their way with me
Her faith in me
Is in a tailspin
Heart look out below
Hold on 'casue here we go
Free fallin' from her good graces again
Free fallin' from her good graces again
