Blackhawk, Love Like This

A king would trade his finest crown
For a love love like this
And warriors have laid weapons down
For a love love like this
Hearts will break a thousand times
For a love love like this
And arms will wait a thousand nights for a love
Love like this

Love may come and love may go But here inside your arms I know That only you will ever show me Love like this

You and I have finally found Love love like this A place to lay our burdens down In a love love like this Hearts can speak without a sound In a love love like this What makes the world keep turnin' 'round Is a love love like this

Love may come and love may go But here inside your arms I know That only you will ever show me Love like this

The moon has never shown before On a love love like this And I have never wanted more than a love Love like this A love love like this A love love like this
