

Blackie And The Rodeo Kings, Job Disorder

Working at the hotel
All night long
Shucking this jive
Singing this song
You ask me how I feel
I need a connection
When the sun don't shine
I need your affection

Love ain't hard
Love is certain
Either you're high
or you're hurtin'

You can speak your mind
You can fill your heart
You can build up your world
or you can tear it all apart
You can flatter your friends
with your good advice
But you do nobody no good
when you tell yourself lies

Love ain't hard
Love is certain
Either you're high
or you're hurtin'
