

# Blackmail, Moonpigs

i was lost on the way but noone ever missed me  
i'm cutting off edges you will see by the morning  
but anyway, anyway  
it's just a tactical warning

you pass it to me  
i pass it to you  
we pass it to evryone we know  
but anyway we're coming through

sugar came and kicked butt  
stopped the way you treat me  
but the blame is stolen  
just look away, look away

you pass it to me  
i pass it to you  
we pass it to anyone we know  
but anyway i'm coming through

it's all that we need  
it's all that we force  
it's all the greed when i hear you call  
by the way i'm out of control

it's all that we need  
it's all that we force  
it's all the greed when i hear you call  
by the way i'm out of control

you pass it to me  
i pass it to you  
we pass it to evryone we know  
but anyway i'm coming through

it's all that we need  
it's all that we force  
it's all the greed when i hear you call  
by the way i'm out of control

it's all that we need  
it's all that we force  
it's all the greed when i hear you call  
by the way i'm out of control  
out of control  
out of control  
out of control
