

Blackmail, Sunday Sister

Sheila said
To an open scene
“Id like to see you there
Before you have to leave”
Shes coming up to score
She dont know what it meant
But now it pays the rent

Id like to see
Whats in her head
Staring down
Until shes bent

She got up at night
She had a bite to eat
Shes looking for friend
Befor she hit the street
Expect what isnt real
Lonely words should answer
Shes told how to feel

Id like to see
Whats in her head
Staring down
Until shes rend
Id like to see it
Until the end

She is falling, she is falling,…

Id like to see
Whats in her head
Staring down
Until shes rend
Id like to see it
Until the end
