

# Blackmail, Sunday Sister

Sheila said  
To an open scene  
&#8220;Id like to see you there  
Before you have to leave&#8221;  
Shes coming up to score  
She dont know what it meant  
But now it pays the rent

Id like to see  
Whats in her head  
Staring down  
Until shes bent

She got up at night  
She had a bite to eat  
Shes looking for friend  
Befor she hit the street  
Expect what isnt real  
Lonely words should answer  
Shes told how to feel

Id like to see  
Whats in her head  
Staring down  
Until shes rend  
Id like to see it  
Until the end

She is falling, she is falling,&#8230;

Id like to see  
Whats in her head  
Staring down  
Until shes rend  
Id like to see it  
Until the end
