

# Blackmass, Eternal War

...War...

The satanic machine  
March inside of the sky  
The killer machine running upon the fire  
Kill my enemies as a panzer of Hell  
The Christian's faith is going down  
Blood from the head, from the lamb  
Destructive power of Evil  
Army of Satan marches across the storm  
The black warriors show your hate  
Virgin statues are going to cry blood  
When the azure becomes Black-Purple  
Fire, blood, and death are (for us) pleasure  
Killer machine,  
Attack, Attack, and Attack  
999 the Eternal War  
666 the Eternal Victory  
999 the Christian's War  
666 the Satanic Victory  
Celestial war between Hell and Heaven  
Traces of Devastation in the black hearts  
Death and more death came from the darkness  
Shadows burn the celestial Temple  
The altars of Christ will turn into dust  
The fire burns the 'Beautifu' (dead) sky  
Pain and more pain to the Christianity  
Killer machine,  
Attack, Attack, and Attack  
Advenire, venire Ego vocare spoire Inferna  
Army of Satan marches across the storm  
The black warriors show your hate  
Fire, blood, and death are (for us) pleasure  
Killer machine,  
Attack, Attack, and Attack  
999 the Eternal War  
666 the Eternal Victory  
999 the Christian's War, 666 Satan's Victory.
