

Blackmore's Night, Toast To Tomorrow

Come and gather around
Join in the crowd
Singing the songs that we know
* We'll drink a toast to tomorrow and one to days long ago

We will dance through the night
In the candlelight
Warmed by the fires glow
*

And we'll follow the stars
No matter how far
Wherever the wind may blow...

When the sun starts to rise
We will not hide our eyes
We'll greet her with a kiss hello...

All the memories we'll share
Greet us everywhere
Along life's twisting road...

Come and gather around
Join in the crowd
Singing the songs that we know
* We'll drink a toast to tomorrow and one to days long ago
