

# Blackstar, Waste Of Space

You would like to think you know it all  
You would like to think you have got it sussed  
Well you are a real hopeless fool  
Too much in love with lady luck  
Well take a look at yourself  
When are you going to realise  
Well get out of my sight  
Because it is you i despise

Well that is right  
Yeah so long  
You are going to have to face it  
That you are nothing but a waste of  
That is right  
Yeah so long  
You are going to have to face it  
That you are nothing but a waste of space  
You are such a waste

Nothing more than a waste of space

You are always out to lunch  
Always too blind to see  
You are just a tourist in another persons reality  
Well take a look at yourself  
Tell me can you see the signs  
A real fool with no hope  
I think you know
