Blackstreet, In A Rush

(feat. Stevie Wonder)

[1] - It came over me in a rush When I realized that I love you so much That sometimes I cry, but I cant tell you why why I feel what I feel inside

How I try to express what's been jugglin' my mind But still can't find the words But I know that something's got a hold of me

[Repeat 1]

Baby, some day I'll find a way to say just what you mean to me But if that day never comes along and you don't hear this song I guess you'll never know that...

[Repeat 1]

And when I say inside, I mean deep You fill my soul with something I cannot explain What's over me

[Repeat 1 'til end]
