

# Blackstreet, Misery Interlude

Baby, I don't know what the problem is

This house is in  
I need you in it  
Abandoned home  
It get so lonely  
Tell me what's wrong (all hope is gone)

I can't go on

Been occupied by your memory  
Three words explain why I'm here (I need you here)  
I need your love (in my life)  
I can't go on in misery (I can't go on)  
I can't go on in misery

I can't live without you  
I need you

Whooooaaaa

I can't go on  
I can't go on living alone  
Without your love  
Can't go on this way without you baby  
In my life  
Life

Something about the way you love me  
You complete me  
I need you  
Dont' take your love away from me  
I don't wanna live in misery  
I can't go on  
No  
All hope is gon  
I can't live w/o you  
I need you  
Don't take your love away from me
